NTM School demolished

Authorities implement the order nine years after it was issued

Mysuru, Feb. 8- Following a Government Order, the Maharani NTM (New Type Model) School on Narayana Shastri Road (N.S. Road) in the heart of the city was demolished by authorities in an overnight operation to pave way for the construction of Vivekananda Memorial and Cultural Youth Centre.

On learning about the demolition of the building, a few members of 'Save NTM School Samiti' arrived at the spot and opposed the demolition. But they were prevented from getting close to the school building, and they ended up having a verbal duel with the Police.

The demolition began at about 11.30 pm and was completed in just an hour. Four Hitachi and three JCB earth-movers were deployed for the operation.

More than 200 Police personnel led by DCP Geetha Prasanna and ACP Shashidhar provided security. Barricades were set up all around the spot.

It may be recalled that the Government, in an order issued on Jan. 9, 2013 (Order No. E.D./771/LIB 2012/13), had handed over the said property to Sri Ramakrishna Ashram, Mysuru, for the construction of Swami Vivekananda Memorial and Cultural Youth Centre (Viveka Smaraka) at the site.

The Government, in its order, had sanctioned NTM School premises and the adjacent BRC building and premises on N.S. Road, to Mysuru Ramakrishna Ashram and Mission, for the construction of the Memorial and also a Youth Centre.

After the Government Order, on Jan. 7, 2022, the authorities had directed the NTM School to be shifted to a building located on the premises of Maharani Teacher Training Institute close by.

Mysore Airport infra works in full swing

To facilitate expansion of runway to handle bigger flights

Budget allocation expected as CM has assured grants, says MP

Mysuru, Feb. 8 (RK&BCT)- Works are going on in full swing to level the areas around the existing runway of the Mysore Airport at Mandakalli and these capacity increasing works will facilitate the proposed runway expansion for bigger flights to land. The existing three parking bases have been increased to five and the runway safety area has been widened.

According to the nature of works as specified by the Airports Authority of India (AAI), up to 140 metres of both sides of the runway should be level and must not have land gradients. Plus, water should not stagnate. The levelling works are being done following AAI guidelines.

The AAI guidelines come after several incidents that have been reported in the recent past where planes while landing have veered off the runway scaring passengers and also leading to accidents. Both sides of the runway are levelled off so that even if the plane veers off during landing or take-off, it will be safe, says the guidelines.

Mysore Airport Director R. Manjunath told *Star of Mysore* this morning that earth movers are being used to level 140 metres on both sides of the runway. "We decided to take up the work with two intentions. One, to follow the AAI guidelines and second, we thought as the talks about expansion are gathering wings, instead of doing the levelling works only after the runway expansion is cleared, we decided to use the spare time now to do the same. The works undertaken now will facilitate speedy expansion," he explained.

Entrance test for admission to Residential Schools on Mar. 20

Mysuru, Feb. 8 (ASC)- The Department of Social Welfare has invited applications to conduct entrance test for admission to 6th standard in residential schools like Morarji Desai, Kittur Rani Chennamma, Ekalavya Model, Atal Bihari Vajpayee, Dr. B.R. Ambedkar and Indira Gandhi Residential Schools for the year 2022-23.

For SC/ST students, annual income limit should be Rs. 2.5 lakh, for OBC 1 students Rs. 2.5 lakh, for OBC 2A, 2B, 3A, 3B students - Rs. 1 lakh. Entrance exam will be conducted on Mar. 20 (Sunday) from 11 am to 1 pm.

Interested candidates may submit their application forms online from Feb. 3 to Feb. 22. Hall tickets can be downloaded from Mar. 14 by logging onto the websites *http://kreis.kar.nic.in* and for more information, log onto *http://kea.kar.nic.in,* according to a press release from the Joint Director of Social Welfare Department.

KUWS&DB Office shifted

Mysuru, Feb. 8 (ASC)- Jal Bhavan, the newly inaugurated building at Saraswathipuram in city, will now house the Mysuru Divisional Office of Karnataka Urban Water Supply and Drainage Board (KUWS&DB), which comprises eight districts and is fully functional.

The Jal Bhavan was recently inaugurated by Urban Development Minister Byrathi Basavaraj,

Hencefirth, all Government, semi-Government and all the office-related paper works of the concerning Departments must visit the Executive Engineer at KUWS&DB Division Office located at Jal Bhavan, First Floor, P-4, Third Cross, 10th Main Road, Saraswathipuram, Mysuru-09. For details, call Ph: 0821-2543552 or Mob: 94808-13128 or e-mail: *kwbmysdiv@gmail.com,* according to a press release from Executive Engineer of Karnataka Urban Water Supply and Drainage Board.

EDITOR'S BOTTOMLINE

BEING ALIVE TO THE PRESENT IS ENLIGHTENMENT: ***Enlightenment, it's simple, really. We have attention and focus of attention. Most of the time our focus of attention is on the chatter and imagery, passing through our minds from remembrance of the past and imagining the future. Focus of attention is not on being aware of ourselves in the present moment, this moment.***

Physically, we are here, now, in this moment, reading these words. Yet, as we read, our focus of attention is not on our being self-aware in the moment, as much as it is focused on formulating a response to what I'm saying through mental associations to past events and future imagining. Though we believe we are here, imagine we are here... if we are not self-aware in the moment, we're in. At the same time, attention is focused on the past and future, we are not 'consciously' here.

Failing to be self-aware in the present leaves us barren of life, because life can only be lived in the present. As we are, day to day, we live mostly unaware that we're alive, only that we have lived or could live in the future. To be, to live self-aware of being alive in the present, is enlightenment. That's it, simple. Life can be remembered or imagined in the future, but it can only be lived in the present. Life is conscious for itself, but not for us for as long as we derive identity from the past and the future.

— Thomas Easley in The Times of India

NEWS SPARKLERS

Controversial nose-only mask of South Korea

Seoul: A new type of South Korean face mask that only covers the wearer's nose has been getting a lot of attention lately.

Called 'kosk" – a combination of 'ko', the Korean word for nose, and 'mask' – the unusual face mask sold by South Korean company Atman consists of two parts, one of which can be removed to leave the wearer's mouth exposed. They are apparently designed to provide some level of protection against COVID while eating, but can also be worn in nose-only mode at any time. Kosk is just one of the nose-only face masks available in South Korea these days and the unusual trend has sparked some controversy, with many declaring the facial accessories utterly useless.

World's largest cake pop bags record

Massachusetts: A pair of popular social media influencers teamed up in Massachusetts to cook a nearly 100-pound cake pop and break a Guinness World Record.

The influencers Nick DiGiovanni and Lynn Davis, aka Lynja, met up in Cambridge to make the 97-pound, 8.52-ounce cake pop. The ingredients were 32 boxes of cake mix, 5 1/2 cartons of egg mix, 16 cups of oil, 16 blocks of cream cheese, 10 bags of powdered sugar, 35 cups of water, 2 sticks of butter, 5 cups of rainbow sprinkles, 6 teaspoons of meringue powder and 16 tablespoons of vanilla extract.

The finished dessert, which was dubbed the world's largest cake pop by Guinness World Records, measured 50.75 inches in circumference and was attached to a 33-inch stick. The chefs said they made sure none of their spherical confection went to waste.

Push-carts at corner junctions causing hindrance to motorists

Sir,

Of late we find an increase in number of push-cart vendors, dangerously positioned at the corner junctions of almost all main roads and cross roads. They do have a right to do the business, but it should not be by causing hindrance to the free movement of pedestrians and motorists.

When they occupy the junction corners, their prospective buyers seated on their two-wheelers, block the free movement of people and vehicles.

The authorities concerned should strictly instruct these vendors to position themselves far away from the corner junctions of main roads and cross roads.

Two victims of road accidents save five lives

Apollo BGS Hospitals becomes first hospital in Mysuru region to perform highest number of transplants

Nagarajachari

Raghu

Mysuru, Feb. 8- Apollo BGS Hospitals, Mysuru, has performed the highest number of Liver and Kidney Transplants in the region becoming a beacon of quality and hope for patients wait-listed for organ transplants.

In 2021, 35 transplants were successfully performed along with two rare Simultaneous Kidney & Pancreas Transplant (SKPT), said Bharatheesha Reddy, Vice-President & Unit Head, Apollo BGS Hospitals, Mysuru.

"Organ transplantation is one of the most challenging and constantly evolving spheres and a multiple organ transplant is the surgical feat that involves transplantation of more than one organ system simultaneously. The results of organ transplants have improved significantly over the last decade which opens up new frontiers of hope for the transplant programme," he said.

Apollo BGS Hospitals, Mysuru, is a Licenced Organ Transplant Centre (OTC) in the region to perform Kidney, Liver, Pancreas and Small Intestine transplants.

Dr. Rajkumar P. Wadhwa, Head, Institutes of Transplant, Apollo BGS Hospitals, said, "We have performed a total number of 290 organ transplant including liver and kidney at Apollo BGS Hospitals with highest success rates. The number of transplants has been progressing every year giving hope to patients wait-listed for organ transplants, despite the prevalence of COVID-19 pandemic."

The organs of P. Nagarajachari (66), retired RPI (Chamarajanagar) and CDI (Channapatna) of Mysuru and Raghu (43) also from Mysuru were harvested and transplanted at Apollo BGS Hospitals, Mysuru, on Feb. 6.

Both the patients were victims of road accidents and were declared brain dead. Both of them were assessed as per the hospital protocol stipulated by the Transplant of Human Organs Act 1994 by panellist doctors at Apollo BGS Hospitals.

The process was executed as per organ donation protocols from Jeeva Sarthakathe. The organs donated are as follows:

Sl. no	Donor	Organs Donated	Recipient Hospital
1.	Nagarajachari	Liver Corneas	Apollo BGS Hospitals, Mysuru Mysore Eye Bank
2.	Raghu	Liver Heart Valves Corneas	Apollo BGS Hospitals, Mysuru Narayana Hrudayalaya, B'luru Mysore Eye Bank

Education Minister releases *Mahadhwani* annual magazine

Dr. Gopalaswamy had thought of imparting native model of education decades ago

Mysuru, Feb.8 (SPN&DM)- Primary and Secondary Education Minister B.C. Nagesh said that educationist Dr. M.V. Gopalaswamy had prioritised native forms of education as early as 1928.

He was speaking after releasing 'Mahadhwani', the Centennial edition of the annual magazine of Lakshimpuram's Gopalaswamy Shishuvihara Independent PU College at a programme held in the College premises here on Monday.

Pointing out that the Indian system of education in the past focussed more on Gurukula and Shishuvihara form rather than University and Collegiate education, Nagesh maintained that the National Education Policy-2020 (NEP) too propagates this idea.

Recalling the contributions of Dr. Gopalaswamy to Mysuru, he said that the late educationist started Mysore Akashavani in 1925 and Gopalaswamy Shishuvihara in 1928.

Noting that Dr. Gopalaswamy had also served as a Psychology Professor at Maharaja's College, the Minister said that the renowned educationist had stressed on child education in pre-independent days itself. Observing that it has taken over 75 years to implement Dr. Gopalaswamy's ideas on academic structure, Nagesh expressed hope that NEP will help in building a stronger and sturdy India in the near future.

Highlighting the salient features of NEP, Nagesh said the system features 5+3+3+4 form of education starting right from Pre-primary education till 12th standard. The Government will train teachers on getting adjusted to the new form of education envisaged in NEP, he added.

University of Mysore Vice-Chancellor Prof. G. Hemantha Kumar, in his address, said that the British form of education was aimed at limiting Indians to clerical jobs. Contending that change can happen only when there is innovation in the education sector, he said that at present, no Indian University finds a place in the list of top 100 global Universities. It is the vision of the Prime Minister that at least 10 Indian Universities make it to the list in the next 10 years through NEP, he said adding that everyone should strive in this regard.

Prof. Hemantha Kumar said that online education too should be imparted along with offline education, which will help in bringing about a transformational change in the education system.

Maharaja Education Trust President Dr. S. Murali, Secretary Dr. T. Vasudev, Gopalaswamy Shishuvihara Institutions President Dr. A.S.Chandrashekar, Secretary N. Anantharamu, College Principal B. Suresh Yadiyal, 'Mahadhwani' College magazine Chief Editor N.R. Manjunath and others were present on the occasion.

Third wave to wane by Feb-end: Health Comr.

Randeep

Bengaluru, Feb. 8 (KMS & BCT)- State Health Commissioner D. Randeep has said that the third wave of COVID-19 is likely to wane by February-end. The peak of cases encountered will come down to the base level by the end of this month itself.

An overall decline in COVID cases in the country is expected by March. With Omicron dominating 90 percent of the cases and Delta being only about 10 percent, the rise and fall in cases being witnessed is the trend across the world, says the data released from Indian Council of Medical Research (ICMR).

"The overall disease epidemiology indicates that the epidemic is heading towards a stable situation. If newer variants of concern of SARS-CoV-2 do not appear in future, things may get well under control. A shift is being noted from the epidemic to the endemic stage," Randeep said, asking people not to panic but exercise caution.

The projections indicate the situation will return to normal in the coming weeks and several restrictions across States would subsequently be lifted. For the past several weeks, India has been witnessing a third wave of Coronavirus infections, which had peaked last month. The latest wave was driven by Omicron, a highly-contagious variant that generally causes a milder disease.

MLA Tanveer Sait discharged from hospital

Tanveer

Mysuru, Feb.8 (RK&GA)- A day after he was admitted to a private hospital in city following complaints of chest pain, N.R. Constituency MLA Tanveer Sait was discharged from the hospital this afternoon.

Sait was admitted on Monday evening after he complained of fever and chest pain while at his Udayagiri residence. The doctors who examined him found that the MLA did not have any serious health issues and the chest pain was induced by some gastric variations.

Following the treatment, Tanveer Sait's health condition improved and was discharged this afternoon.

NEWS BRIEFS

KRS village murder case

Mass cremation of victims

Police teams formed to nab killers

Srirangapatna, Feb. 8 (Vinay Karekura&KS)- The mass cremation of a woman and four children, who were found murdered in their house on Bazaar Lane in Krishna Raja Sagar (KRS) village on Saturday night or during the wee hours of Sunday, was held at the village yesterday.

The deceased are 32-year-old Lakshmi, her children 12-year-old Raj, 7-year-old Komal and 4-year-old Kunal. One more victim, 8-year-old Govinda, is the son of a relative. After the post-mortem was conducted at MMC&RI mortuary yesterday, the bodies were handed over to the family members which were later brought to KRS village, where the mass cremation was held at burial grounds on the banks of River Cauvery.

Before the cremation, the bodies were taken in a procession in the village in which the family, community members and villagers took part. The last rites were conducted by the deceased woman's husband Gangaram.

Lakshmi's husband Gangaram is a garment trader and travels to many places to purchase and sell clothes. Several families from Rajasthan, Maharashtra and other parts of North India have made KRS village their home and are staying in houses on Bazaar Lane since over 40 years. They are primarily from the business community and used to get clothes and other goods from other places outside Karnataka to be sold in the Mysuru region.

Police teams formed to nab killers

Meanwhile, senior Police officers have formed special Police teams to nab the killers. As the Police have suspected the involvement of people from other States, the special Police teams are said to have left to many places in and outside the State to trace and nab the killers.

Meanwhile, former Srirangapatna MLA Ramesh Bandisiddegowda, who visited the house of Gangaram, consoled him and advised him to co-operate with the Police investigation.

The former MLA said that it is for the first time he had seen such an incident and urged the Police to bring the culprits to book.

Miscreants hack woman to death in South Kodagu

Deceased woman's sister too brutally assaulted

Gonikoppal, Feb. 8 (KS)- A group of miscreants have attacked two sisters with lethal weapons killing one of them on the spot and have left another sister in serious condition at T. Shettigeri village in South Kodagu on Sunday evening.

While the deceased has been identified as Prema, the seriously injured is Veda. Veda and her husband Raju, residents of Bengaluru, had arrived from Bengaluru about four days ago and were staying in the house of Prema.

On Sunday, Prema and Veda had gone to the wedding of a friend near the house and while returning home in the evening, miscreants had attacked them. As Prema was struck with a lethal weapon on her neck, Prema had breathed her last on the spot due to excessive bleeding. Veda, who too was assaulted, had sustained serious injuries and was rendered unconscious on the spot.

On Monday morning, a woman, who was taking her cow for grazing saw the sisters lying in a pool of blood and informed the owner of the estate. Meanwhile, villagers, who gathered at the spot, saw that Veda was still alive, informed the jurisdictional Police and admitted Veda to a hospital in Madikeri, where she is said to be recovering.

Dy.SP Jayakumar has formed a special Police team to trace and arrest the miscreants. As the Police have suspected involvement of Veda's husband Raju following his suspicious behaviour, Cops have interrogated Raju. A mobile phone has been recovered at the crime spot.

'Mahabharat' actor Praveen Kumar Sobti, who played Bheem, dies at 74

Praveen Kumar Sobti

New Delhi, Feb. 8 (Agencies)- Actor-athlete Praveen Kumar Sobti, best known for playing Bheem in the TV series 'Mahabharat' and for winning an Asian Games gold medal, died following a cardiac arrest late Monday (Feb. 7) evening. He was 74.

The actor breathed his last at his Ashok Vihar residence here.

"He had a chronic chest infection problem. At night, when he started feeling uneasy, we called the doctor at home. He passed away between 10-10.30 pm following a cardiac arrest," a relative of Praveen said.

Praveen represented the country across various athletic events in hammer and discus throw and even won four medals at the Asian Games, including two gold medals in 1966 and 1970. He also won a silver medal in hammer throw during the 1966 Commonwealth Games.

The athlete gained further popularity after he began his acting career and featured as Bheem in BR Chopra's classic 'Mahabharat' in 1988. He is survived by his wife, daughter, two younger brothers and a sister.

Obituary

Prof. G.L. Somnath Datta

Mysuru, Feb. 8- Prof. G.L. Somnath Datta (82), retired Professor at RIE and a resident of T.K. Layout, passed away this morning in city.

He leaves behind his wife, two daughters, sons-in-law, grandchildren and a host of relatives and friends.

Last rites were held at Muktidhama in Vijayanagar 4th Stage today.

R. Krishnamurthy

A native of Kodiugane village in the taluk, he leaves behind his wife, two daughters, one son and a host of relatives and friends. Former MP R. Dhruvanarayan is the brother-in-law of the late Police officer.

Last rites were held at Kodiugane village on Monday evening.

Susheelamma

Susheelamma (85), wife of late Vasudeva Shastry, passed away at her son's residence in Bengaluru on Monday, following brief illness.

A veena exponent, she leaves behind two sons and a host of relatives and friends. Last rites were held at Bengaluru today.

102-year-old Yalakaiah

Hunsur: Yalakaiah (102), a resident of Kattemalalawadi in the taluk, passed away yesterday morning at the village.

He leaves behind two daughters, sons-in-law, grandchildren and a host of relatives and friends. Last rites were held at the village yesterday evening.

R. Sreenivasamurthy

R. Sreenivasamurthy (65), a pro-Dalit activist and a retired Manager of Kaveri Grameena Bank (now Karnataka Gramin Bank), passed away yesterday evening in Mysuru.

Eldest son of late Raju and a resident of Banni Street in the town, Sreenivasamurthy leaves behind his wife, one son, one daughter and a host of relatives and friends. Last rites were held at the family's farm land in Hunsur this afternoon.

MP seeks Rs. 85.98 crore to renovate Mysuru hospitals

Pratap Simha meets CM Bommai in New Delhi; urges for administrative approval

MP Pratap Simha with CM Basavaraj Bommai at New Delhi yesterday.

Mysuru, Feb. 8 (PM&BCT)- With just days away for the Karnataka Chief Minister Basavaraj Bommai to make final changes to the Karnataka Budget 2022-2023, Mysuru-Kodagu MP Pratap Simha has given his wish-list to the CM in New Delhi.

Meeting Bommai yesterday, the MP sought a special allocation of Rs. 85.98 crore to renovate the Mysore Medical College and Research Institute (MMC&RI) and the constituent hospitals run by the institution — K.R. Hospital, Cheluvamba Hospital and PKTB Hospital. These are the largest public healthcare facilities in the region apart from being the teaching hospitals of the MMC&RI.

All the hospitals and the MMC&RI are housed in heritage buildings and there is an urgent need to restore them with structural repairs. The structures have sustained the weather for over 100 years and the MMC&RI is one of the oldest medical colleges in India, the MP told the CM.

An estimate of Rs. 85.98 crore has been prepared for restoring the K.R. Hospital, Cheluvamba Hospital and PKTB Hospital and it has been sent to the Government long back and till now there is no news of the approval. The MP requested the CM to accord administrative approval to the estimates.

In a press release, Pratap Simha has said that the CM has positively responded to his request. Moreover, the restoration works at this juncture assumes significance that many buildings have reported damages and leakages. Also, a lot of patients from Mysuru and neighbouring districts depend on these hospitals for treatment and it becomes important to strengthen them, the MP noted.

It may be mentioned here that the MMC&RI had submitted a memorandum to the MP on Jan. 4. The proceedings of the meeting held by Chamaraja MLA L. Nagendra on Aug. 9, 2021 has been mentioned in the memorandum seeking grants from the Government to restore the structures without spoiling their heritage characters.

The memorandum submitted by the MMC&RI says that apart from buildings that house the K.R. Hospital and Cheluvamba Hospital, there are over 12 buildings on the campus. Some of them need urgent repairs.

The existing buildings have to be strengthened for the future as new structures cannot be built on the campus due to lack of space. As the buildings were built using lime mortar, they need to be re-plastered and given stability to ensure that they stay strong in the years ahead, the memorandum said.

Approval sought to develop Kodagu roads in PPP model

Mysuru-Madikeri Highway. *[Picture for representation only]*

Mysuru, Feb. 8 (PM&BCT)- During his meeting with CM Bommai in New Delhi yesterday, MP Pratap Simha has urged for approval to develop certain roads in his constituency (Mysuru-Kodagu) under Public-Private-Partnership (PPP) model with Karnataka Road Development Corporation Limited (KRDCL).

The roads identified to be developed in the PPP model are: Mysuru-Madikeri Road from Yasodharapura near Hunsur on National Highway 275 Junction (Kallbeta), State Highway 90 from Hunsur, Virajpet to Talacauvery, State Highway 91 from Thithimathi, Gonikoppal, Bittangala to Perumbadi, Kandimakki-Makutta road till the Kerala border up to 76 kms and State Highway 89 from Madikeri to Kutta via Siddapura, Pollibetta, Gonikoppal, Ponnampet, Hudikeri, Shettigeri and Srimangala with a total distance of 85 kms.

Reports have been submitted to the State Government by KRDCL Managing Director Rekha after studying the modalities, present situation of the roads and also how the PPP model can be implemented.

The KRDCL has estimated the cost of repairs at Rs. 6.43 crore. The MP drew the CM's attention to a memorandum submitted by him to PWD Minister C.C. Patil following which the estimate was made. He urged Bommai to allocate funds in the forthcoming Budget.

Rename NTM School as 'Maharani Kempananjammanni New Type Model Government School'

Delegation thanks Education Minister for shifting NTM School to original place

Mysuru, Feb. 8- Days after the Government shifted the NTM School to Maharani Teacher Training Institute premises located opposite the School on N.S. Road, where the NTM School was originally started over a century ago, a delegation led by Prof. P.V. Nanjaraj Urs thanked Primary and Secondary Education Minister B.C. Nagesh for shifting the school to its founding location.

Prof. Urs, who met the Minister at DIET (District Institute of Education and Training) in Nazarbad here on Monday, thanked the Minister for the shifting of the NTM School, which was founded by Maharani Kempananjammanni over a century ago.

Pointing out that this was the first ever Government Girls School in the erstwhile Mysore Princely State, Prof. Urs appealed the Minister to develop the School as a model institution.

Stressing on the need for maintaining the heritage characteristics of the school when new blocks are constructed, he wanted the Government to sanction more funds for the school's development.

The delegation also appealed the Government to rename the School as 'Maharani Kempananjammanni New Type Model Government School.'

Prof. Urs presented a copy of a book on Nalwadi Krishnaraja Wadiyar to Minister Nagesh. After receiving the book, the Minister is said to have told that there are plans to introduce chapters on Nalwadi's contributions for the State's welfare and growth, in School curriculum.

Deputy Director of Public Instructions (DDPI) Ramachandraraje Urs was present on the occasion. Activists Aravind Sharma, H.L. Yamuna and others were in the delegation.

Mysore Airport infra works in full swing

(Continued from page 1)

More green space: The entire surroundings of the runway is being levelled, especially the part near the Mysuru-Nanjangud Highway that had a steep gradient. Even this area has been levelled off after clearing wild growth. Systematic landscaping of gardens will be the next scope of work and greenery will be increased for more visual appeal, Manjunath added. There was an old building that was operational years ago before the new building and the Air Traffic Control systems were established. This building has been demolished and the area has been levelled off, Manjunath said. Other works include wall-to-wall grading, increasing the terminal seating capacity and augmenting infrastructure at goods terminal, he said.

Works under progress at Mysore Airport.

Cabinet to clear Rs. 400 crore for runway expansion: MP

Mysuru, Feb. 8 (BCT&RK)- At present, the Mysore Airport has a single runway of 1,740 metres in length which is only suitable for ATR planes providing short-haul flight operations. The existing Airport is spread over 507 acres and under the expansion project, the length of the runway will be increased to 2,750 metres and 45 metres width that allows jet aircraft such as Boeing 737 and Airbus A320 to land.

Pratap Simha

For the runway expansion, 240 acres of land is required and the Karnataka Industrial Area Development Board (KIADB) has given final notification for acquisition of 160 acres. The process has been stuck as the State Government is yet to release funds for land acquisition.

Speaking to *Star of Mysore* from New Delhi this morning, Mysuru-Kodagu MP Pratap Simha said that the capacity of the Airport in terms of passenger terminal and goods terminal is being increased and the land surrounding the existing runway is being levelled off as per guidelines.

"Over Rs. 400 crore is needed to pay compensation to land owners who will lose land for the project and Rs. 1.5 crore will be paid per acre through KIADB. I met Chief Minister Basavaraj Bommai in Delhi yesterday and sought budgetary allocation. The CM has assured me that the issue of Rs. 400 crore will come up in the Cabinet and a note is being prepared to be tabled before the next Cabinet for approval. The CM sounded positive and I am hopeful of Budget allocation and also Cabinet approval," he said.

Once the land is acquired, the KIADB will hand over the same to the Airports Authority of India and Rs. 700 crore already ready with the Centre will be used to expand the runway. "Accordingly, the facilities at Air Traffic Control will be augmented to handle bigger flights and also to handle frequent arrivals and departures," he added.

NTM School demolished

(Continued from page 1)

As a follow-up, the Commissioner of Public Instruction had issued a reminder on Jan. 29, 2022 asking the authorities to initiate action in this regard.

The authorities then shifted the furniture, stationery and other articles from the NTM School to the Government-run Maharani Teacher Training Institute located opposite the NTM School on N.S. Road on Feb. 3. Since Feb. 4, the NTM School, with very few students, has been functioning from this new premises.

In Jan. 2013, after the Government ordered that the NTM School premises be handed over to Ramakrishna Ashram, Mysuru, several organisations of the city, supported by some activists and political leaders, started to stage a series of demonstrations and rallies against the Government's action. The Government and authorities have put a decisive end to the row by implementing the order.

Hit-and-Run case

Woman succumbs to injuries at hospital

Mysuru, Feb. 8 (RK&KS)- A 41-year-old woman, who had sustained serious injuries, when an unidentified car hit her and sped away on Dec. 22, 2021 and admitted to a private hospital in city, has succumbed to injuries at the hospital yesterday midnight.

The deceased is Sridevi, wife of Bharatiya Reserve Bank Note Mudran Private Limited (BRBNMPL) Assistant Manager Manjunath Raj and a resident of KHB Colony in Hootagalli.

On Dec. 22, 2021, Sridevi along with her daughter was proceeding towards city on her scooter, when an unidentified car rammed into the scooter at about 12 noon near Paduvarahalli on Hunsur Road and sped away.

Sridevi

While Sridevi sustained serious injuries, her daughter Gagana escaped with minor injuries. Sridevi, who was undergoing treatment at a private hospital in city, succumbed to injuries at the hospital yesterday.

Post-mortem was conducted at MMC&RI mortuary this morning and the body was handed over to the family members.

V.V. Puram Traffic Police, who have registered a case, have launched a hunt to trace the unidentified car.

Obavva Art of Self-Defence Training inaugurated in city

Girl students of Dharmapura Kittur Rani Chennamma Residential School present karate demonstration

Girl students of Dharmapura Kittur Rani Chennamma Residential School presenting a karate demonstration during the inauguration of 'Obavva Art of Self-Defence Training' at the Government Post-Matric Boys' Hostel at Nazarbad in city this morning.

Mysuru, Feb. 8 (PM&KS)- In a bid to provide complete self-defence training to over 5,178 girl students including 2,316 students from Social Welfare Department, 1,862 from Backward Classes Welfare Department and students from various residential Schools and post-matric girls hostels, to ward off attackers and criminals, 'Obavva Art of Self-Defence Training,' a martial arts training, was formally inaugurated at Government Post Matric Boys' Hostel at Nazarbad in city this morning.

Chief Minister Basavaraj Bommai had launched the training programme in Bengaluru on Sunday.

'Obavva Art of Self-Defence Training' has been jointly initiated by the Social Welfare Department, Backward Classes Welfare Department and girls hostels that come under Karnataka Residential Education Institution.

Speaking after inaugurating the self-defence training, MLC C.N. Manjegowda said that girls have more commitment than boys and added that great women personalities such as Onake Obavva and former Prime Minister late Indira Gandhi have been role models for many women.

Pointing out that atrocities on women had increased in recent days, Manjegowda said that it is the right time for girls to get themselves trained in martial arts and added, "If karate is for self-defence, education is for life. If my mother had not encouraged me to study, I would have not been standing in front of you all today," he said.

Meanwhile, girl students of Dharmapura Kittur Rani Chennamma Residential School presented a karate demonstration on the occasion.

Social Welfare Department Joint Director Malathi, District Backward Classes Welfare Officer H.S. Bindiya, Corporator Satish, Khadi Board Chairman Krishnappagowda, MyLAC Chairman N.V. Phaneesh, Zilla Panchayat Deputy Secretary Premkumar, Mysore Karate Association Secretary Siddaraju and others were present.

Eshwarappa visits Chamundi Hill

RDPR Minister K.S. Eshwarappa, who was in city this morning, visited Chamundi Hill and offered prayers to the deity along with his family members. BJP Backward Class Morcha City President Jogi Manju and other party leaders accompanied him.

Man gives new life to his best friend's wife

COVID snatches away his friend but he gives new meaning for their 13-year-old friendship

Chamarajanagar, Feb. 8 (SS &BCT)- At a time when many cordial family relationships have broken due to COVID and its aftermath and at a time when many couples have parted ways unable to bear the post-pandemic trauma of living in a relationship that no longer values dignity and mutual trust, here is a man who married a woman, his best friend's wife, who was finding it difficult to come to terms with her husband's death.

The woman, 30-year-old Ambika from Hanur village near Chamarajanagar, with a seven-year-old child, lost her husband Chetan Kumar (41), a resident of Mullur of Kollegal taluk. They got married eight years ago and were settled in Bengaluru where Chetan Kumar was working at a private factory.

The family led a cordial life until COVID second wave struck and Chetan Kumar contracted the virus. He was admitted to a private hospital in Bengaluru and after a battle between life and death for 15 days, he breathed his last. Ambika lost all hopes in life and as Chetan was the sole bread-winner of the family, she had no means to make ends meet.

Seeing her plight, Chetan Kumar's friends decided to support the family and this too came as a noble gesture as normally friends and relatives do not come to anyone's rescue when in crisis. The friends pooled in money to support the family financially.

Deciding to stand by the mother and son, 36-year-old M. Lokesh, a resident of Nanjadevanapura in Chamarajanagar — who was close to Chetan Kumar — offered to marry Ambika. However, Ambika refused as she was yet to come to terms with her loss. She went into depression too.

Lokesh, however, pursued the matter and took the issue to Chetan Kumar's parents and also convinced Ambika's parents and his elders. The families readily agreed so that Ambika and her little son can lead a good life, with Lokesh's support. Though the families had agreed, Ambika refused and only after months of counselling and advice, she agreed to tie the knot with Lokesh.

The marriage was solemnised on Jan. 27 in Bengaluru at the Sarpabhushana Shivayogi Mutt premises on K.G. Road. Mutt Seer Sri Mallikarjuna Swamiji expressed happiness over the wedding and said Lokesh's intentions were a model to the society. The marriage took place in the presence of Mallikarjuna Devaru, Siddalinga Swamiji of Hamsabhavi Mutt and other religious heads. Lokesh said that he and Chetan Kumar were friends for over 13 years. "I felt terrible after losing Chetan to COVID and wanted to be a support to his family. I first confided with friends and later with the families. Now all have blessed us," he said.

A visibly happy Ambika's 7-year-old son too was a witness to his mother's new life.

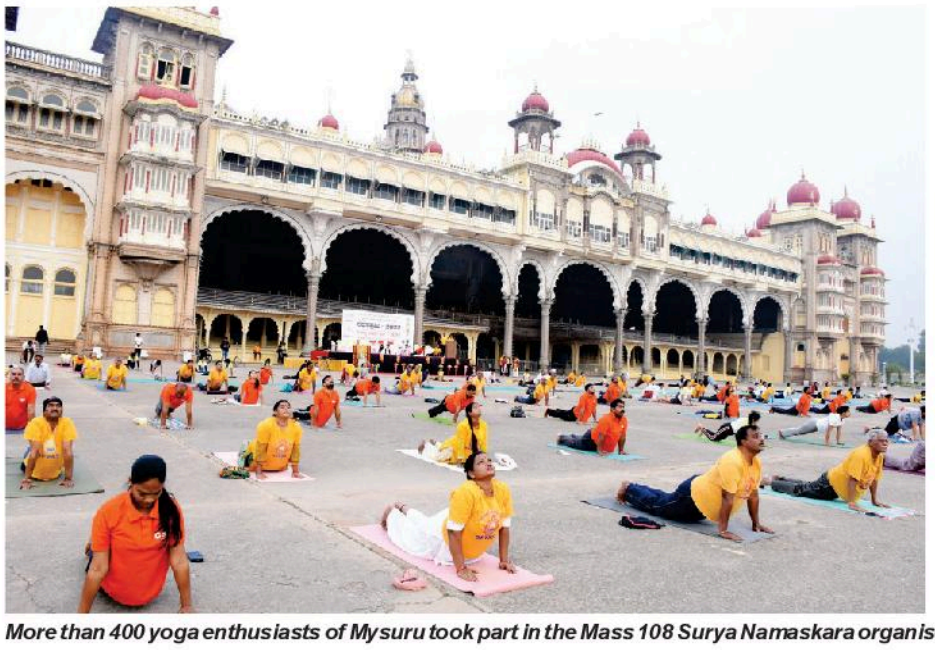
Surya Namaskara marks Rathasapthami



More than 400 yoga enthusiasts of Mysuru took part in the Mass 108 Surya Namaskara organised by Mysore Yoga Okkuta in association with Mysore Palace Board as part of Rathasapthami in the Palace premises early this morning. Picture right shows over 100 people performing Surya Namaskara in front of Sri Srikanteshwaraswamy Temple in Nanjangud today.

'Breast cancer causes liver problems'

New research study by JSS Medical College

Dr. Prasanna Santhekadur

Dr. Samudyata

Dr. Saravana Babu

Mysuru, Feb.8- A new research study conducted by scientists from JSS Medical College, JSS School of Pharmacy and School of Life Sciences, JSS Academy of Higher Education and Research (JSS AHER), Mysuru, shows that breast cancer causes liver inflammation (hepatitis) and fibrosis. This study is a novel one and they have explored the most possible molecular mechanism behind the breast cancer associated comorbidities (liver injury).

This study was recently published in the peer reviewed journal *Advances in Cancer Biology-Metastasis* which belongs to the very popular Elsevier Publisher Group.

Due to the increased sedentary lifestyle, lack of exercise and walking, westernisation, increase in intake of high calorie diet, the prevalence of obesity, metabolic syndrome and associated cancers are rapidly increasing in Karnataka, as well as throughout the Indian subcontinent and across the globe.

According to recent studies and reports, breast cancer became the most common cancer globally as of 2021, accounting for 12% of all new annual cancer cases worldwide, according to the World Health Organisation (WHO).

In India, breast cancer has become the commonest cancer in women overall. In 2018, 1,62,468 new cases and 87,090 deaths were reported for breast cancer in India.

Liver is the largest and one of the vital organs of the human body. Liver inflammation and Fibrosis may also lead to Hepatocellular Carcinoma (the most common type of liver cancer). There are one or two drugs available in the markets to treat liver inflammation, fibrosis and Hepatocellular Carcinoma. Therefore, this study from JSS scientists has major importance in Cancer Biology as well as in Pharmaceutical Industries and Clinical Research.

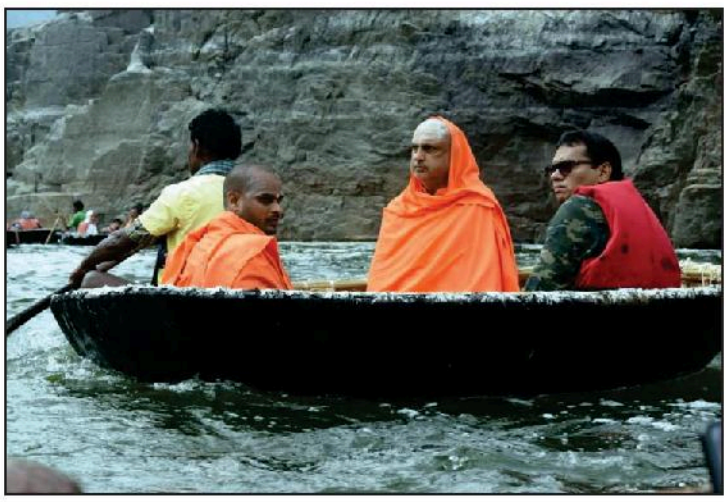
Dr. Prasanna Santhekadur, Associate Professor and Ramalingaswami Fellow at Department of Biochemistry, JSS Medical College and his Ph.D students G.S. Nirmala and D.S.Varsha in collaboration with Dr. Samudyata C. Prabhuswamimath, an Assistant Professor, JSS School of Life Sciences and Professor, Dr. C. Saravana Babu and Sunanda Tuladhar from JSS School of Pharmacy, conducted this study.

This study is not only important for breast cancer patients but has importance in understanding various other types of cancer associated comorbidities of Liver injury and Cancer metastasis too.

As a Principal Investigator, Dr. Prasanna Santhekadur has been working in this field for almost 18 years. During his post-doctoral training in USA, Dr. Prasanna Santhekadur demonstrated that AEG-1 and SND1 are components of the RNA-induced silencing complex (RISC) and it is very essential for proper RISC activity in each and every eukaryotic cell including human cells (Previously the Nobel Prize in Physiology or Medicine was awarded to Andrew Fire and Craig Mello for their breakthrough discovery of RNA interference or RISC activity in 2006).

Last year his team also explored the potential and multi-dimensional anti-cancer activities of the Withaferin A on different Liver cancer cells. This study is supported by Ramalingaswami Fellowship, Department of Biotechnology, Government of India.

Suttur Seer visits Hogenakkal Falls



Hanur, Feb. 8 (SSM) - Suttur Seer Sri Shivarathri Deshikendra Swamiji visited Hogenakkal Falls on Karnataka-Tamil Nadu border near Male Mahadeshwara (MM) Hills on Sunday.

He arrived at the falls around 8 am and sought details from the authorities on the development works taken up there. He urged the officers to provide basic facilities to the people and visitors who come to this place.

Suttur Seer also visited the Cauvery Drinking Water Supply Unit in M.M. Hills before his visit to Hogenakkal Falls. He was briefed about the works by the M.M. Hills Temple Development Authority officials. He said that people must not face any problem in the supply of drinking water in M.M. Hills.

Later, Suttur Seer along with Salur Mutt Seer Sri Shanthamallikarjuna Swamiji took a coracle ride around Hogenakkal Falls and enjoyed the beautiful nature. M.M. Hills Temple Development Authority Secretary Jayavibhavaswamy, DCF V. Yedukondalu, National Wildlife Board Member Malleshappa and others were present.

BABU'S BANTER

Dr. Lakshmi Krishnan

A pictorial ode to Mysuru...

Mysuru-born Dr. Lakshmi Krishnan, an Oral Pathologist by qualification with keen interest in cancer research and public health, currently works as Senior Clinical Research Scientist at Niramai Health Analytix in Bengaluru.

Having lived and studied in the Heritage City for many years and now moved out of the city, her fondness for hometown remains quite strong. Hence to give a form to this fondness, Dr. Lakshmi, who has always dabbled in art and signed her painting with the nickname Kruthi, started off an ambitious project titled 'Mysuru Days with Kruthi.' As she turned 37 in October 2021, she wanted to raise a toast to the city she was born by etching 37 of her nostalgic memories of Mysuru in colour with minute details.

Speaking to *Star of Mysore,* Dr. Lakshmi said that she is not formally trained in watercolour and has picked it up during the second lockdown.

Here we publish some of her paintings of Mysuru's landmarks and most visited spots.

An alumnus of JSS Dental College, Mysuru, she did her schooling at Teresian, Siddarthanagar & JSS Public School in J.P. Nagar and PU from Marimallappa's.

Daughter of N. Krishnan and Sumithra, residents of Gayathripuram, Lakshmi is married to Niranjan Joshi, a scientist.

WORD OF THE DAY

Bona fides

Pronunciation: boh-nuh-FYE-deez.
Meaning: A person's bona fides is the evidence of their qualifications or achievements.
Origin: Bona fides looks like a plural word in English, but in Latin it is a singular noun that literally means "good faith." When bona fides entered English, it at first stayed very close to its Latin use, and it also kept its singular form — for example, "a claimant whose bona fides is unquestionable." But in the 20th century, use of bona fides began to widen, and it began to appear with a plural verb in certain contexts, such as "the informant's bona fides were ascertained."
Example: "Hoping to fulfill its desire for an experienced leader with MLS knowledge, Atlanta United signed free-agent midfielder Ozzie Alonso.... Alonso, 36, has made 338 appearances and his bona fides include winning four U.S. Open Cups, one MLS Cup, one Supporters' Shield, four All-Star teams and one Best XI." — Doug Roberson

THE ODD WORD

Bacciferous

Bearing berries.

PHRASE OF THE DAY

Back to the drawing board

Meaning: Time to start all over again.
Origin: The origin of the idiom "back to the drawing board" is art. The saying is attributed to an American artist named Peter Arno, who published his cartoons in the New Yorker. In a comic strip from 1941, we see a man in a fancy suit, carrying a bunch of rolled up papers assumed to be mechanical drawings of an aircraft, walking away from a crashed plane. In the bubble above his head, we read "Well, back to the drawing board."
Example: "It looks like my plans to kill the weeds in the garden failed. Back to the drawing board."

QUOTE BOX

If you board the wrong train, it is no use running along the corridor in the other direction. **—Dietrich Bonhoeffer**

RIDDLE THIS
